

# WIIT

## GenAI Rediscover Productivity

**INCREASE PRODUCTIVITY.  
REDUCE COSTS. NEXT-LEVEL COMPLIANCE**

Manual processing of compliance processes is not only error-prone, but also expensive. With Governance GPT, you can drastically reduce the effort involved while increasing quality and reaction speed.

# Rediscover productivity with GenAI

## WIIT Cloud Platform Governance GPT (GGPT)

### for applied AI in your company

#### Increase productivity. Reduce costs. Next-level compliance

Manual processing of compliance processes is not only error-prone, but also expensive. With Governance GPT, you can drastically reduce the effort involved while increasing quality and reaction speed.

Lower testing  
and consulting  
costs

Closing complian-  
ce gaps instead of  
searching

More precise formu-  
lations, fewer findings  
during audits

Get new employees  
up to  
speed faster

Reports, audits and  
evidence at the touch  
of a button

#### WIIT makes compliance smart AI-supported applications for greater efficiency and security

Our applications support you with:

Automatic execution of gap analyses  
and tracking of measures for  
(re-)certification

Standardization of compliance  
documentation and targeted reduction  
of duplication

Evaluation of regulatory changes and  
their impact on existing contracts

Risk assessment for deviations from  
applicable requirements

Preparation of targeted compliance reports  
for internal and external stakeholders

(Partially) automated development of  
internal guidelines and policies

#### The WIIT Cloud Platform GGPT Always ready to go for compliance GenAI!

**WIIT, PASS & Elastic** combine their expertise in Cloud, RegTech and GenAI - and invite you to the exclusive **Early-Adopter-Program** for future-proof compliance solutions.

**Start quickly.** With the GGPT platform, you can achieve your first measurable successes in just 3-5 months - and roll out further use cases step by step until your entire compliance is AI-supported.

#### WIIT

Premium cloud provider for  
critical applications & data

#### Elastic

Leading in search and GenAI  
technologies

#### PASS

System integrator and RegTech  
expert for financial service  
providers

# Elastic meets GenAI

## Automate compliance efficiently

### State-of-the-art technology

The platform uses Elastic RAG as well as open or commercial Large Language Models (LLM) – freely selectable by the customer.

### Smart communication with the LLM

Prefabricated and customizable prompts ensure precise and effective AI queries.

### Individual user experience

Optionally available front ends tailored to customer requirements.

### AI-ready connection of your data sources

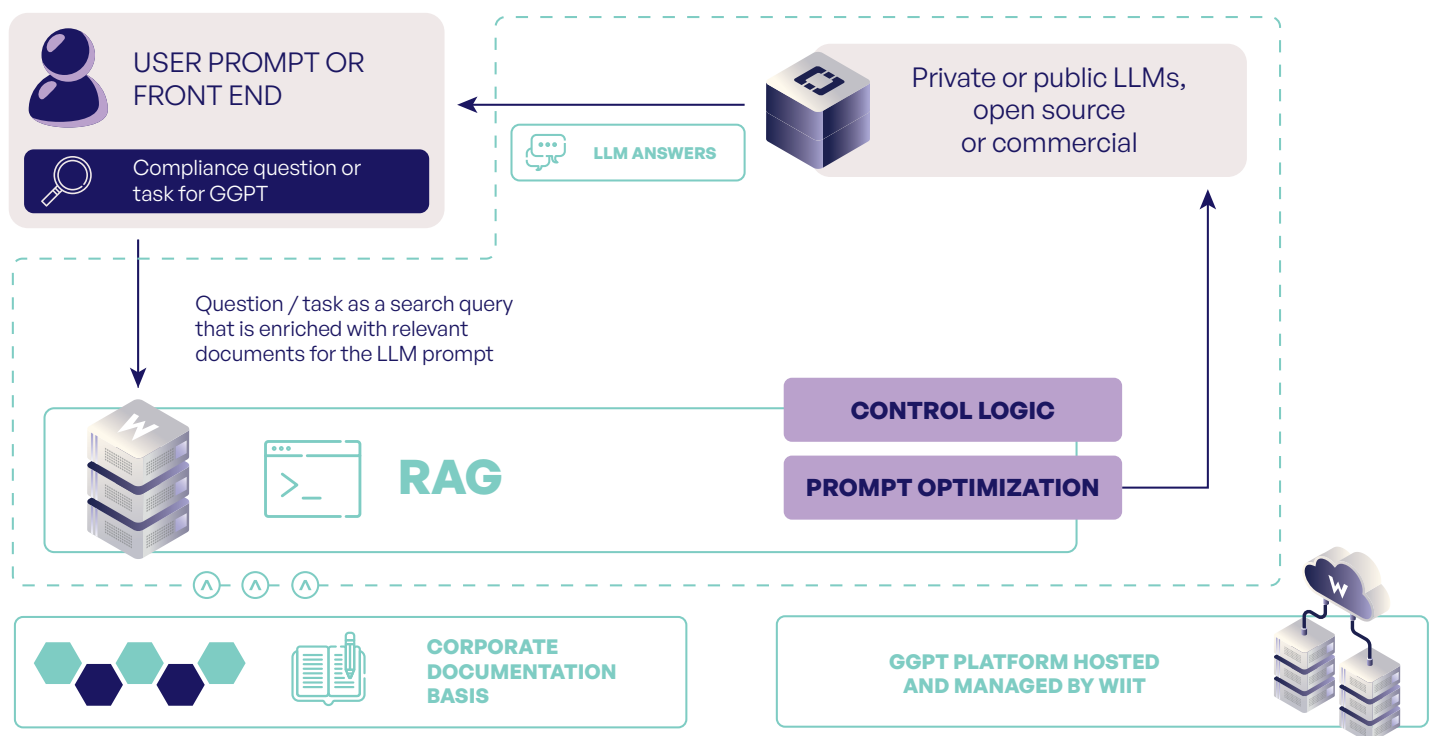

We already provide many required documents in an AI-optimized form.

### More quality with every use

Integrated analysis and optimization functions for continuously better GenAI results.

### EU AI Act ready

Data sovereign operation with full compliance with European regulations.

### Arrange a consultation now!

Let's get started together –  
for more efficient workflows and  
continuous growth.
